# CAREER GUIDANCE & EDUCATIONAL PLANING WORKSHOPS

Students at Junior Cert. and Transition Year levels normally select their Leaving Certificate Subjects during the Spring term before 5th Year. The range of courses and colleges available can be overwhelming to young students. CTA Career Guidance workshops help you navigate your way through the maze of course options and requirements, and also help you match your goals with appropriate 3rd level courses.

CTA career workshops aim to support young people in exploring their career options and making informed decisions about subject choices, higher education, alternative pathways and future employment. Interestingly one Higher Education Authority study shows that almost one-in-six students drop out of all third-level courses before 2nd Year. To this end it is essential that students receive appropriate career guidance as early on in the process as is possible before they set out on a career pathway.
