Clonmel Tuition Academy

For non-native speakers of the English language the IELTS test is the most effective and achievable way to gain access to UK and Irish university courses. The IELTS examination is a recognised measure of whether you are ready to study or train in the medium of English. It also helps people improve job prospects or measure progress in English. In this course, you will learn skills, techniques and methods to get the highest mark possible in your IELTS exam. The examination consists of four papers: reading, writing, listening and speaking.
