Are you feeling nervous about taking the Leaving Cert. Higher Level Maths Paper? Don't be! CTA 'Maths Boosters' are here to help you. These 6 week courses are designed to get you in top shape for the Leaving Cert. HL Maths Exam, and will let you sleep at night!

Each of the Higher-Level Maths suite of 'Booster Courses' focus on specific areas of the syllabus and are designed for both 5th & 6th year students who want to get the best results in their Leaving Cert. HL Maths exam. Typically these courses are run regularly over 6 weeks throughout the year and enable the student to apply their skills to different context questions which account for half of the marks in Paper 1 and Paper 2.

The courses utilise practice papers with the opportunity to revisit the basics in each focus area. Excellent concise notes are provided for the students to take away and study outside of class. There will also be help with examination techniques in each focus area. The course subject matter is taught from scratch therefore no prior knowledge is required. For this reason the courses are applicable to both 5th & 6th year students. These are not revision courses!!! CTA offers 4 HL LC Maths Boosters in the following areas:

- **Course 1) LC HL Calculus**
- **Course 2) LC HL Trigonometry**
- **Course 3) LC HL Geometry of Line & Circle**
- **Course 4) LC HL Financial Maths**
