

Clonmel Tuition Academy

IN-HOUSE CORPORATE LANGUAGE TRAINING

FRENCH

SPANISH

GERMAN

ENGLISH

VALUE. CUSTOMISATION. FLEXIBILITY

"The ability to educate a workforce and immediately transfer that knowledge into action is the ultimate competitive advantage!"

Unlock the Potential of Your Work Force!

As global competition increases, particularly post-Brexit, organisations can no longer rely on English as the Lingua franca/common language of business but need to be prepared to invest in the foreign language skills of their employees. International customers prefer to do business in their own language and a multi-lingual workforce will give you that competitive edge.

WHY CHOOSE US:

CTA currently delivers language training for businesses with 'global reach' in the following four languages:

 **English – General/Business**

 **German – General / Business**

 **French – General / Business**

 **Spanish – General / Business**

We deliver focused, customised in-house corporate training programmes which ensure that training is designed around your needs and tailored to fit your business. Learning with a teacher face to face is better than any app or language learning software. It enables you to practice speaking and get instant feedback.

Why employee language training is good for business:

Personal and professional development and keeps employees motivated

Productivity through team building – intercultural competence and team building skills

Compete globally – expand and grow the business into new markets

No matter the size of your group or your specific training needs, Clonmel Tuition Academy is equipped to support your business through education for your valued employees.

To learn more about our many training options and to design a custom program to achieve your company's goals, contact us today at info@clonmeltuitionacademy.ie or Tel: **052-615 4620**

*All CTA language training programs are led by qualified, certified and experienced language instructors, and our curricula are designed to develop effective speaking, reading, and communication skills in the target language. For international companies, CTA adheres to the **Common European Framework of Reference (CEFR)** for languages, a six-rung internationally accepted scale for measuring student performance.*
